

## Two Add-On Acquisitions for Fair Damage Control

**Dear Investors,  
Partners and Friends of Ufenau Capital Partners**

Pfäeffikon, December 2016

Ufenau Capital Partners is pleased to announce two add-on acquisitions for Fair Damage Control Holding ("FDC"). FDC acquired the two German-based companies E.Via Schadenmanagement and FTS Preischel to strengthen its footprint in the area of claim management and handling for insurance companies.

**E.Via Schadenmanagement** is located in Hannover, Germany, and active in the field of claim management, handling and repair of electronic devices after damages covered by third-party liability insurances. The company has a comprehensive experience with more than 50'000 completed claims.

**FTS Preischel** is based in North Rhine-Westphalia, Germany, and manages and repairs insurance claims due to burglary damages on doors and windows. The strongly growing provider offers its services in assessing and repairing claims nationwide throughout Germany.

**Fair Damage Control Holding** is pleased to have extended the group's existing portfolio – both in offered services as well as geographically. The group has already established a leading market position as full-service outsourcing provider for insurance companies and aims to further strengthen its market position through organic growth as well as via future acquisitions.

"We are pleased to have found the right partner to respond to recent developments such as the increasing digitalization in the insurance market. We are certain to be in an excellent position for the future as part of FDC. I perceived FDC and Ufenau as very competent and fair throughout the whole transaction process", states Ralf Preischel, founder of FTS Preischel who remains CEO.

Our remaining portfolio companies will also realise further add-on acquisitions within the near future and we are looking forward to announcing more details in due course.

Your Ufenau Team
